Silver State **VB** Skills Series

JUNE 10th – JULY 9th 2019

* This popular clinic series allows middle school and high school players to attend 10 clinic sessions for one low price. The goal of the program is to provide an in depth look at specific skills and to allow players of different positions to develop a full skill set. Open to all levels of players, as the focus will primarily be individual technical development; Come prepared to learn and bring a notebook to take notes. While the individual classes have a theme, we'll be incorporating all skills into each, so it is beneficial to attend no matter position.
